"A lot of my getting to know artists was at home rather than in the gallery."

Milan Moments

Hernan Arriaga, just back from Salone Internazionale del Mobile, shares his favorite finds and inspirations.

"Dedon had an incredible booth. I loved seeing its new collaboration with Stephen Burks."

"This is a display by Pedrali that I will never forget. The rotating circles impressed everyone."

"The Temporary Museum at Superstudio Più was super cool! It had such a great mix of established brands and new, young talent."

"This kitchen designed by the Campanas stopped me in my tracks. The design was inspired by a Swiss Army knife; it's certainly functional and also beautiful."

"I always loved Merci's signature vintage red Fiat 500. It's so representative of what this very famous concept store from Paris does."

FASHION LOVES FURNITURE

Milan was bubbling over with fashion houses that have taken on design.

Giorgio Armani's latest collection for Armani/Casa, *The Golden Age*, includes the Trocadero table, above. At left, a look from the Fall 2012 collection.

For Hermès' second home collection, it introduced Module H, a modular wall system, above. At left, a look from its Fall 2012 collection.
